Description: TII is launching a new €21m grant scheme, funded by the Department of Transport through the Zero Emission Vehicles Ireland unit (ZEVI), to incentivise and accelerate the development of **electric vehicle** Charging Infrastructure (EVCI) on most of the motorway/dual-carriageway elements of the national road network (NRN) in the State. The Alternative Fuel

Infrastructure Regulation (AFIR) provides mandatory targets to be achieved by Member States for EV charging infrastructure dedicated to both LDVs and HDVs on the TEN-T. In response to the above, Ireland has set its own national targets for en-route **electric vehicle** Charging Infrastructure as outlined in the Draft National En-Route EV Charging Network Plan 2022-2030 and the Climate Action Plan 2024. The objective of the scheme is to support the achievement of national EVCI targets and mandatory European targets. In this initial scheme, TII will provide grant funding in connection with the roll-out of en-route EVCI and in particular high-powered en-route charging infrastructure for light duty vehicles (LDV). The Scheme is an “aid scheme” for the purposes of, and within the meaning of General Block Exemption Regulation, (GBER). TII hereby invites interested parties to participate in the Competition, with the objective of securing a Grant in relation to Eligible Costs incurred by it. TII has chosen to advertise this Competition via eTenders (and via national press) to ensure that it is brought to the attention of interested Applicants. However, the Grant Letter is not a public contract or a public concession contract within the meaning of Directives 2014/23, 2014/24 or 2014/25 (the “Procurement Directives”) and the provisions of the Procurement Directives do not apply to this Competition. Notwithstanding that, TII is choosing to follow a process which is broadly similar to the open procedure described within the Procurement Directives, Applicants should have no expectation or understanding that the Procurement Directives will be applied by TII during the Competition (for example, and without limitation, TII reserves the right to proceed to award of the Grant Letter without observing a standstill period).

Description: De gemeente Amstelveen schrijft onderhavige Europese Aanbesteding uit voor het sluiten van Overeenkomsten voor het leveren van elektrische en hybride vrachtwagens inclusief reparatie- en onderhoudscontracten. De vrachtwagens worden ingezet voor afvalinzameling via ondergrondse containers en minicontainers, het ophalen van grofvuil aan huis en reiniging en onderhoud van riolering. De gemeente Amstelveen hecht een grote waarde aan duurzaamheid én veiligheid. Bij deze vervanging dient hier dus ook rekening mee gehouden te worden en is er gekozen om een mix van hybride en 100% elektrische vrachtwagens aan te besteden. Op het gebied van veiligheid streeft men naar de nieuwste standaarden. Op deze manier wil de gemeente het goede voorbeeld geven richting haar inwoners. Het doel van de aanbesteding is het selecteren van één Leverancier voor elk perceel die de door de gemeente Amstelveen gewenste vrachtwagen(s) kan leveren onder de gestelde voorwaarden en condities.

Categories:	32000000 - Electronic Components and Supplies 43000000 - Information Technology Broadcasting and Telecommunications 81000000 - Engineering and Research and Technology Based Services
Region:	Auckland
Overview:	<p>This Request for Information (RFI) is issued for Auckland Transport (AT). The aim of this process is to seek and obtain information from organisations about the potential supply of Electronic Flood Alert Systems.</p> <p>Auckland Transport is currently completing a pilot a of an Electronic Flood Alert System at one North/West and one South Auckland site. This Request for Information (RFI) is to establish if there are any other suppliers that can provide these services for future procurement needs.</p> <p>There are no known such alert systems for Auckland Roads so far. The optimal locations of the required infrastructure will be worked through with the contractors and area specialists on a site by site basis. Sensors that will trigger an alert to Auckland Transport's operations centre once waters reach set levels will be required in addition to activating electronic road signs which can provide key messages to road users.</p> <p>This type of technology is proving effective in other countries that have been impacted by severe weather events such as Australia and USA. Installing it in Auckland will enable Auckland Transport to warn users about the likelihood of having to utilise alternative routes ahead of any road closures as water levels rise, along with the sign being able to notify when the road is closed and/or diversion routes. The alerts sent back to Auckland Transports Operations Centre will enable wider communications to be circulated such as on AT's website, via social media to community groups, radio and so on.</p> <p>The RFI Information Contact Person set out in Schedule of RFI Conditions will be assisting with the administration of this RFI.</p> <p>Auckland Transport is open to receiving information from independent suppliers that can provide the full range of scope, a combined effort involving multiple companies for the differing aspects or information from smaller entities that can only provide part of the scope such as the sensors and signs. Auckland Transport can organise installation and traffic management separately if necessary.</p> <p>Should any company want to showcase what they can provide or discuss the need in greater detail, meetings can be arranged via the RFI Contact Person:</p> <p>Irina Stefanescu: Irina.Stefanescu@at.govt.nz</p>

Description: Předmětem plnění veřejné zakázky je pořízení vozidel formou operativního leasingu na dobu 36 měsíců s možností následného odkupu, a to pro tři (3) totožná osobní sedmimístná až osmimístná vozidla kategorie M1. Typ pohonu plug-in hybrid. Součástí plnění budou rovněž služby vyplývající z Přílohy č. 10 – Obchodní podmínky (závazný dokument), tzn. pojištění a další služby s tím spojené jako zpracování pojistných událostí, servis vozidel, pneuservis, nonstop asistenční služba, dálniční poplatky, poplatek za rádio a servisní vozidlo. Vozidla musí splňovat požadavky definice nového dopravního prostředku. Nový dopravní prostředek / nové vozidlo je nově vyrobené vozidlo, které dosud nebylo registrováno v České republice ani v jiném státě, s výjimkou zkušebních či předváděcích účelů, v těchto případech nesmí doba registrace překročit 6 měsíců (bylo dodáno 6 měsíců ode dne prvního uvedení do provozu) a zároveň nesmí mít najeto více, než 6 000 km. Předmětem plnění jsou vozidla, která mají vystavené platné prohlášení o shodě prokazující schválení typu vozidla včetně alternativního pohonu. Předmětem plnění je Plug-in electric hybrid (PHEV), tzn. Vozidlo s více pohonnými jednotkami, které disponuje elektrickým pohonem a lze jej dobíjet i z externího zdroje elektrické energie. Termín dodání plnění (automobilů) k službě operativního leasingu max. do: 9-ti kalendářních měsíců od písemné výzvy zadavatele k zahájení plnění předmětu zadávacího řízení Služba operativního leasingu bude poskytována po dobu 36 kalendářních měsíců ode dne převzetí vozidel zadavatelem. Více viz zadávací dokumentace.

Description: Acquisition par Vehiposte d'un dispositif d'autopartage permettant de mettre à disposition des collaborateurs de La Poste des véhicules en libre-service pour des déplacements professionnels et privés. Le dispositif d'autopartage doit permettre d'avoir accès aux véhicules en libre-service à l'aide d'une application mobile et à l'aide de cartes RFID (en l'absence d'accessibilité aux services de téléphonie mobile 3G, 4G ou 5G). Les prestations attendues sont les suivantes : -

Fourniture d'une solution logicielle de réservation en ligne (Frontoffice) en mode SaaS. - Fourniture d'une solution logicielle pour administrer le dispositif d'autopartage (backoffice) en mode SaaS comprenant pour les usages privés un outil de facturation des locations avec paiement en ligne ; l'administration des véhicules et des usagers ; un outil de consolidation des données collectées des véhicules, d'analyse statistiques, d'indicateurs et d'alertes personnalisé. Cet outil consolidera les données collectées des véhicules. - Assistance téléphonique en langue française. - Formation au dispositif d'autopartage. - Installation du matériel dans le véhicule. La Solution d'autopartage sera déployée sur le territoire français hors outremer dès signature du marché.

Additional Address:

Tender Url: <https://ted.europa.eu/udl?uri=TED:NOTICE:94024-2024:TEXT:EN:HTML&src=0>

Description: Kerry County Council, with the support of Transport Infrastructure Ireland (TII), are developing the South Kerry Greenway which involves the construction of a 27 km greenway between Glenbeigh and Cahersiveen Co. Kerry. The route has been split up into several construction packages with Kerry County Council undertaking the construction of some of the works under direct labour. It is currently anticipated that the scope of this Design and Build Contract will be related to the following elements of the South Kerry Greenway. Section 2 Griffins

Cottage to Kells Post Office (CH 18200 to CH 25650m) Cahersiveen (Valentia Estuary) Bridge (CH 5180m) Gleensk Viaduct (CH 21,800m) N70 Overbridge (CH 26,870m) N70 Underpass (CH 14,680m) Kells Car Park (CH 18,200m) The works requirements for the above sections will encompass all works necessary to complete the greenway including, design, PSDP Services, PSCS Services, environmental management, earthworks, drainage, pavement, fencing, landscaping, signage, slope stabilization, retaining wall construction, rehabilitation of existing structures, construction of new structures, road realignment, traffic management and all other services necessary to complete the works. The Design and Build Section contains a number of bridge structures and tunnels of historical and cultural significance. It is a requirement that all the conditions imposed by the Planning Consent, the Environmental Impact Assessment Report, the associated Schedule of Environmental Commitments, and the Natura Impact Statement, and any Wildlife and Derogation Licenses are complied with in full. The greenway route traverses or is in close proximity to several Special Areas of Conservation (SAC) and Special Protection Areas (SPA). The project is subject to strict environmental controls in accordance with the plans, particulars and conditions associated with the project consents. Environmental management will form a key part of the successful execution of this project. In particular, it is a requirement that construction is carried out in accordance with the Construction Environmental Management Plan (CEMP), other environmental management plans required under the EIAR and NIS, relevant Wildlife and derogation licenses to create and manage a suitable receiving environment for the Kerry Slug in the area affected by the proposed greenway. A series of advance works contracts are currently being completed. These include the construction of a Gabion Trial Section at Mountain Stage and Site Clearance and Temporary Fencing. Candidates that are pre-qualified and shortlisted on the basis of their responses to this first stage Pre-Qualification may be invited to participate in the second stage Tender. That tender competition will be awarded on the basis of the Most Economically Advantageous Tender based on Award Criteria made up of 70 (Quality) and 30 (Price).

Tender Url: <https://ted.europa.eu/udl?uri=TED:NOTICE:89990-2024:TEXT:EN:HTML&src=0>

Description: De gemeente Amstelveen schrijft onderhavige Europese Aanbesteding uit voor het sluiten van Overeenkomsten voor het leveren van elektrische en hybride vrachtwagens inclusief

reparatie- en onderhoudscontracten. De vrachtwagens worden ingezet voor afvalinzameling via ondergrondse containers en minicontainers, het ophalen van grofvuil aan huis en reiniging en onderhoud van riolering. De gemeente Amstelveen hecht een grote waarde aan duurzaamheid én veiligheid. Bij deze vervanging dient hier dus ook rekening mee gehouden te worden en is er gekozen om een mix van hybride en 100% elektrische vrachtwagens aan te besteden. Op het gebied van veiligheid streeft men naar de nieuwste standaarden. Op deze manier wil de gemeente het goede voorbeeld geven richting haar inwoners. Het doel van de aanbesteding is het selecteren van één Leverancier voor elk perceel die de door de gemeente Amstelveen gewenste vrachtwagen(s) kan leveren onder de gestelde voorwaarden en condities. De omzetverwachting: De totale omzetverwachting voor deze aanbesteding bedraagt € 7.050.000 voor de levering van de vrachtwagens inclusief de reparatie- en onderhoudscontracten gerekend over een looptijd van 7 jaar. Zie onderstaand een verdeling omzetverwachting per perceel. Hieraan kunnen geen rechten worden ontleend, de omzetverwachting is slechts ter indicatie opgenomen. - Perceel 1 Vacuüm-combi (groot en klein): € 1.400.000 - Perceel 2 Achterlader : € 600.000 - Perceel 3 Kraan-trechter : € 1.600.000 - Perceel 4 Zijlader : € 1.500.000 - Perceel 5 Haakarm : € 550.000 - Perceel 6 Haakarm-kraan : € 1.400.000

Tender Url: <https://ted.europa.eu/udl?uri=TED:NOTICE:91311-2024:TEXT:EN:HTML&src=0>

Description: Serviciile ce urmează a fi prestate (pe LOTUL 1 -rute interne și / sau pe LOTUL 2- rute externe) au ca obiect: Rezervarea și emiterea biletelor de transport aerian electronice „e-tickets”, pe rute interne (LOTUL 1) și pe rute externe (LOTUL 2) și efectuarea de activități conexe rezervării și emiterii acestora, pentru care se încheie un acord cadru de servicii pe lot 1 si/sau lot 2, pe o perioadă de 4 ani calendaristici de la data încheierii sale(48 luni). În cadrul prestării de “SERVICII DE TRANSPORT AERIAN PE RUTE INTERNE ȘI PE RUTE EXTERNE - 2 LOTURI” pe care AC-

INS intenționează să achiziționeze, rezervarea și emiterea biletelor de transport aerian electronice „e-tickets” (denumite și bilete de avion electronice), se vor efectua cu respect.

următorii caracteristici tehnice ale prestației: a) rezervarea și emiterea biletelor de avion electronice „e-tickets” se va realiza în beneficiul achizitorului INS, pentru rute interne (destinații sau, după caz, puncte de plecare de pe teritoriul României) și / sau pentru rute externe (destinații sau, după caz, puncte de plecare internaționale). LOTUL 1 și / sau LOTUL 2, de către OE care dețin personal specializat în activitatea de ticketing; b) rezervarea și emiterea biletelor de avion electronice „e-tickets” se va efectua ori de câte ori va fi nevoie, în conformitate cu necesitățile și cu constrângerile achizitorului INS, pentru intervalele de execuție ce vor fi prevăzute în "Invitațiile de participare la procesul de reluare a competiției (de reoferțare)" și în viitoarele contracte subsecvente/comenzi ferme care urmează să se atribuie în termenul de valabilitate a acordului cadru de servicii, de 4 ani calendaristici (48 luni) de la data încheierii sale; c) rezervarea și emiterea biletelor de avion electronice „e-tickets” se va efectua pentru conducătorii cu rang de demnitar și / sau pentru angajații și / sau, după caz, pentru alte categorii de delegați ai autorității contractante INS, participanți la călătoriile pe rute interne și / sau pe rute externe (LOTUL 1 și / sau LOTUL 2); toate categoriile de persoane enumerate în prezentul paragraf, în numele cărora se vor efectua rezervări și se vor achiziționa bilete de transport aerian electronice "e-tickets", pe rute interne și / sau pe rute externe (LOTUL 1 și / sau LOTUL 2), în perioadele derulării contractelor subsecvente/comenzi ferme încheiate în baza viitorului acord cadru de servicii al lotului, vor fi desemnate, în continuare, în cadrul prezentului Caiet de Sarcini, cu termenul generic de "beneficiari ai călătoriilor". d) categoriile de bilete care vor fi solicitate în cadrul contractelor subsecvente/comenzilor ferme, pe parcursul derulării acordului cadru vor putea fi: în funcție de tipul zborului: cu precădere, bilete dus - întors, iar, după caz, și / sau numai bilete dus, și / sau numai bilete întors, și / sau bilete pentru destinații (zboruri / legături) multiple; în funcție de clasa de confort a aeronavei: bilete clasa „Business” (pentru demnitari) și / sau bilete clasa „Economy” (pentru celelalte categorii de personal angajat sau delegați), iar, în cazuri cu totul excepționale, clasa unică de confort „low cost”; în funcție de programarea datelor de zbor: cu includerea zilelor de weekend sau fără includerea acestora, în datele zborurilor; NOTĂ: Caracteristicile tehnico-financiare generale ale biletului de transport aerian electronic (denumit și bilet de avion electronic) / "e-ticket" sunt redate, în cuprinsul subcap. V.2. al caietului de sarcini. e) Rezervarea și emiterea biletelor de avion electronice „e-tickets” se va efectua, în principal, pentru zboruri cu aeronave ale companiilor de linie (membre ale Asociației Internaționale de Transport Aerian - IATA) și, în plan secundar (la cerința expresă a AC-INS sau dacă nu vor exista zboruri ale companiilor aeriene membre IATA, pe destinațiile solicitate), cu aeronave ale companiilor care efectuează zboruri „low cost”. Cantitățile minime / maxime de servicii preconizate, de autoritatea contractantă INS, a fi solicitate pe întreaga perioadă de valabilitate a viitorului acord cadru precum și cantitățile minime / maxime de servicii prezumate să se solicite la nivelul celui mai mare contract subsecvent/comanda fermă, care se estimează că se va atribuie în perioada de valabilitate a acordului cadru (de 48 de luni calendaristice / 4 ani) sunt cele indicate în Tabelul 1 al Anexei 1 la caietul de sarcini. Termenul limită până la care se pot solicita clarificări, de către OE interesați de accesul la procedura de atribuire: data anterioară cu 19 zile datei limită de depunere a ofertei. Termenul limită pentru publicarea, de către AC, a răspunsurilor la solicitările de clarificări adresate de OE înainte de data limită de depunere a ofertelor: Singurul termen de răspuns va fi în data anterioară cu 11 zile datei limită de depunere a ofertei în conf. cu prevederile art.161, alin.(2) din legea 98/2016 privind achizițiile publice, cu modificările și completările ulterioare.

Description: UAT Județul Brașov este beneficiarul contractului de finanțare nerambursabilă a proiectului „ Microbuze verzi în școlile din județul Brașov”_cod P35 în cadrul apelului de proiecte:

”Microbuze electrice pentru elevi”, finanțat prin Programul Național de Redresare și Reziliență / Pilonul VI. Politici pentru noua generație/ Componenta C15: Educație / Reforma 6: Actualizarea cadrului legislativ pentru a asigura standarde ecologice de proiectare, construcție și dotare în sistemul de învățământ preuniversitar/ Investiția 10: Dezvoltarea rețelei de școli verzi și achiziționarea de microbuze verzi care are ca obiect achiziționarea unui număr de 28 microbuze electrice de capacitate diferită, după cum urmează: - 1 microbuz electric de capacitate 8 locuri (din care 1 loc pentru persoane cu dizabilități) + 1 loc pentru conducătorul auto; - 8 microbuze electrice de capacitate 16 locuri (din care 1 loc pentru persoane cu dizabilități) + 1 loc pentru conducătorul auto; - 19 microbuze electrice de capacitate 22 locuri (din care 1 loc pentru persoane cu dizabilități) + 1 loc pentru conducătorul auto. care vor asigura transportul elevilor din 27 de localități aparținând județului Brașov. Realizarea acestei investiții a apărut în contextul schimbărilor climatice ca o soluție de reducere a emisiilor de gaze cu efect de seră cu impact negativ asupra mediul înconjurător prin asigurarea mobilității prin microbuze electrice, prietenoase cu mediul și cu un consum energetic redus, asigurând astfel mijloace de deplasare pentru elevii aflați în zone cu populație scăzută, facilitând accesul la educație de calitate a acestora și protejarea mediului în același timp. Totodată investiția vizează tranziția spre ”verde”, punctul central al agendei Uniunii Europene pentru următorul deceniu, prin care se urmărește îmbunătățirea condițiilor de transport în zonele din mediul rural mai puțin accesibile, care dispun de puține variante de transport, precum și a școlilor din mediul urban care au înmatriculați elevi care nu locuiesc în apropierea unităților de învățământ, parcurgând distanțe lungi către școală. Numărul de zile până la care se pot solicita clarificări înainte de data limită de depunere a ofertelor este de 20 zile. Autoritatea contractantă va răspunde în mod clar și complet tuturor solicitărilor de clarificări în a 11-a zi înainte de data limită de depunere a ofertelor”. Orice solicitare de clarificări trebuie transmisă în SEAP (<https://e-licitatie.ro/pub>). Valoarea estimată a achiziției este 30.172.511,61 lei fara TVA, din care: Lotul 1- Microbuz electric 8 locuri pe scaune din care 1 loc pentru persoanele cu dizabilități + 1 loc pentru conducătorul auto-246.920,17 lei, fără TVA Lotul 2- Microbuz electric 16 locuri pe scaune din care 1 loc pentru persoanele cu dizabilități + 1 loc pentru conducătorul auto- 9.098.696,52 lei, fără TVA Lotul 3- Microbuz electric de capacitate 22 locuri (din care 1 loc pentru persoane cu dizabilități) + 1 loc pentru conducătorul auto- 20.826.894,92 lei, fără TVA
